SUMMARY

Security & Compliance Analyst with experience in security policy development, SOC 2 control monitoring, customer security assessments, and security awareness program management. Support HeroDevs' cybersecurity program growth by aligning policies and procedures with stakeholder standards and managing employee training and phishing simulations. Pursuing an M.S. in Digital Forensics at the University of Central Florida, expected in 2027. Certified in CompTIA Security+, AWS Certified Cloud Practitioner, BTL1, and Practical OSINT Research Professional, with 5+ years of prior experience in audit review, confidential data handling, executive reporting, and cross-functional coordination.

EDUCATION

UNIVERSITY OF CENTRAL FLORIDA — Orlando, Florida
Master of Science in **Digital Forensics** — Expected December 2027

ST. PETERSBURG COLLEGE — St. Petersburg, Florida
Bachelor of Applied Science in **Cybersecurity** & Associate of Arts — December 2025
Cumulative GPA: 3.7

CERTIFICATIONS

CompTIA Security+ - November 2025 | **AWS Certified Cloud Practitioner-** February 2026 | **Practical OSINT Research Professional (PORP)-** April 2026 | **Blue Team Level 1 (BTL1)-** Aug 2026

SECURITY PROJECTS & PORTFOLIO CASE STUDIES

- **Hotel GRC Security Policy Manual** (Jan. 2025 – May 2025)**-** Developed a comprehensive 25-page information security policy manual for a hospitality organization, covering access control, data classification, privacy, asset management, physical security, social media use, business continuity, and version control; aligned policy language with NIST SP 800-53, ISO 27001, and PCI DSS v4.0.
- **Secure Online Election Capstone Project** (August 2025 – December 2025)**-** Designed a defense-in-depth security architecture for a high-risk online election environment, mapping controls for segmented trust zones, MFA, encrypted ballot handling, least privilege, audit logging, SIEM monitoring, IDS/IPS, backup strategy, and incident response planning.
- **OSINT Research Workflow** (April 2026) **-** Built and documented an OSINT research workflow focused on search refinement, corroboration, OPSEC, source validation, structured analysis, and clear reporting; completed a 127-page OSINT analysis report for the PORP exam.

WORK EXPERIENCE

HERODEVS INC. — Remote, FL
Security & Compliance Analyst — Aug 2026 – Present

- Strengthen the company's cybersecurity program by assessing gaps against stakeholder-defined cybersecurity standards and developing supporting policies and procedures.
- Manage the security awareness and training program, including employee training assignments, phishing simulations, completion tracking, reporting, and follow-up.
- Revised Asset Management and Information Security policies; authored a Policy Review SOP and Security Awareness and Training Policy.
- Monitor SOC 2 controls daily in Drata, identifying failing controls and flagging issues for review and remediation.
- Prepare customer security RFP responses, communicating security practices and compliance controls.

NEW HOTEL COLLECTION — St. Petersburg, FL
Reservations Manager & Executive Assistant to the CEO — Aug 2020 – June 2025

- Authored a 25-page information security policy manual for a multi-property hotel chain, addressing access control, data classification, privacy, asset management, physical security, social media use, business continuity, and version control.
- Identified gaps in formal governance, documentation, and secure business processes and presented policy and risk-reduction recommendations directly to the CEO.
- Protected revenue and reduced losses by conducting monthly audit reviews and reconciling OTA invoices across four properties to identify billing discrepancies, reservation errors, overbookings, refund issues, and chargeback risks, preventing an estimated $5,000 in monthly revenue loss and approximately $300,000 over five years.
- Automated daily performance and financial reporting in Excel for executive leadership, reducing manual reporting time by approximately 3 hours per day while maintaining confidentiality of sensitive business metrics.
- Supported the secure implementation of a cloud-based Property Management System across four properties, training

staff on system usage, role-based access practices, and operational procedures and resolving account and access issues for approximately 100 employees.

- Managed confidential financial records, executive communications, contracts, employee information, and sensitive business documents while maintaining strict confidentiality and process control.
- Served as the senior escalation point for high-priority operational and process-control issues, coordinating responses across 17 departments spanning three properties and the corporate office and documenting resolutions.
- Drove more than $1.5M in room revenue across four properties while reviewing rates, discounts, comps, contracts, refunds, and payment discrepancies to strengthen financial controls and reduce operational risk.

CORE COMPETENCIES & TECHNICAL SKILLS

GRC & Compliance: Information Security Governance, Risk Management, Risk Assessment, Compliance Support, Policy Development, Control Documentation, Audit Review, Data Governance, Business Continuity, NIST SP 800-53, ISO 27001, PCI DSS v4.0, SOC 2 Type 2 Audits **Security Controls:** Access Control, Least Privilege, Role-Based Access, Security Awareness, Data Classification, Privacy, Incident Response Concepts. **Technical Foundations:** AWS Cloud Security, IAM Concepts, SIEM Monitoring Concepts, Audit Logging. **Research & Reporting:** Documentation, Executive Reporting, Cross-Functional Coordination, OSINT, Source Validation, Structured Analysis

INTERPERSONAL SKILLS

Oral & Written Communication, Leadership, Customer & Staff Management, Sales Management, Cross-Functional Collaboration, Stakeholder Management, Problem-Solving, Conflict Resolution, De-escalation, Escalation Management, Project Management, Prioritization, Decision-Making, Analytical & Critical Thinking, Attention to Detail, Adaptability, Teamwork, Emotional Intelligence, Confidentiality & Professional Discretion.
